

Earth Month

Ballona Creek Cleanup

Co-hosted by State Senator Ben Allen!

9am-noon, Saturday, April 16th

Centinela Ave. at Milton St., LA 90066, between Culver Blvd. and the I-90/Marina Fwy

In collaboration with [State Senator Ben Allen-SD26](#), Ballona Creek Renaissance and Culver City High's BCR Club welcome your participation in our big Earth Month Zero Waste event!

Join volunteers of all ages in this fun and worthwhile activity along the estuary in Del Rey, where the inland water and incoming tide meet. You'll experience a special place of water, fish, birds, plants---yet still too much trash and concrete!

It's a great way for students to earn community service credits! As with all creek and coastal cleanups, participants under 18 need waiver forms signed by their parent or guardian.

Wear closed-toed shoes (preferably water-resistant) and sunscreen. Bring your own water in a reusable container. Water also will be available at the event, along with bags, grabbers, gloves, buckets, and educational displays. Arrive by bike or car. Park on Milton Street, Centinela Avenue, or Culver Drive.

For waivers, map, and more, go online to www.ballonacreek.org. This revised flier also is available by contacting jim.lamm@ballonacreek.org.

BCR's Centinela Avenue creek cleanups are made possible by the ongoing support and permission of LA County Public Works/Flood Control District and LA City Council District 11/Councilman Mike Bonin and the active co-sponsorship of the Del Rey Neighborhood Council and LA City Office of Community Beautification.
